## **OPEN DOORS**

### **WORLD WATCH LIST:**

Open Doors have asked for prayer for the persecuted church each week, based on their world watch list, taking one country each week. As North Korea has been top of the list for twenty years running it seems right to begin with that country. It is estimated that there are about 400,000 believers in N Korea although, given its isolation, the limited access to information from within it, and the fact that Christians have to keep their faith hidden, this is just an estimate. Being discovered as a Christian is a death sentence, either immediately, or by starvation in one of the many prison camps in which 50-70,000 Christian believers are held. For more information see
